

Scalability & Future Plan

Project Name: ComicCraft – AI Comic Story Creator using Gemini Models

Academic Year: 2026

Potential enhancements beyond the current implementation.

Area	Future Enhancement
Image generation	Generate and store final artwork for every panel in the same workflow
Persistence	Add database-backed story history and user accounts
Export	Export complete comics as PDF, PNG or a printable layout
Editing	Allow users to edit individual panels and regenerate selected panels
Character memory	Maintain reusable character profiles across multiple stories
Deployment	Deploy on a managed hosting platform with secure secret management
Performance	Add caching, queueing and rate-limit handling for higher concurrency
Accessibility	Add responsive design, keyboard navigation and improved error messaging
